#### **Proposed Budget - Fund Balance**

Beginning in 2005-06, PA restricted district's Unassigned Fund Balance to a % scale based on budget.

At about the same time, accrual valuations of retire health care costs and the funding of PSERS were becoming increasingly discussed and were recognized as significant future costs of most if not all PA school districts.

The administration and school board began to plan for these future costs and over 5 plus budget years established committed fund balances to minimize current and future real estate tax increases.

The 2022-23 budget and the proposed 2023-24 budget include a \$250,000 capital projects fund balance transfer.

We would like to use \$128,100 of the funds set aside for PSERS/OPEB to offset the second year of the HSA expense.

The technology reserve will be used over the next two years to fund the replacement of chromebooks and other projects.
